

INNOVATING PERSONAL SAFETY

iFearLESS offers you an end-to-end solution to keep yourself, your loved ones and employees safe.

The majority of South Africans are living with underlying stress about their personal safety. The lack of safety which includes personal, mental and emotional safety, is a major barrier to wellbeing and limits the opportunity to achieve one's full potential - *Maslow*.

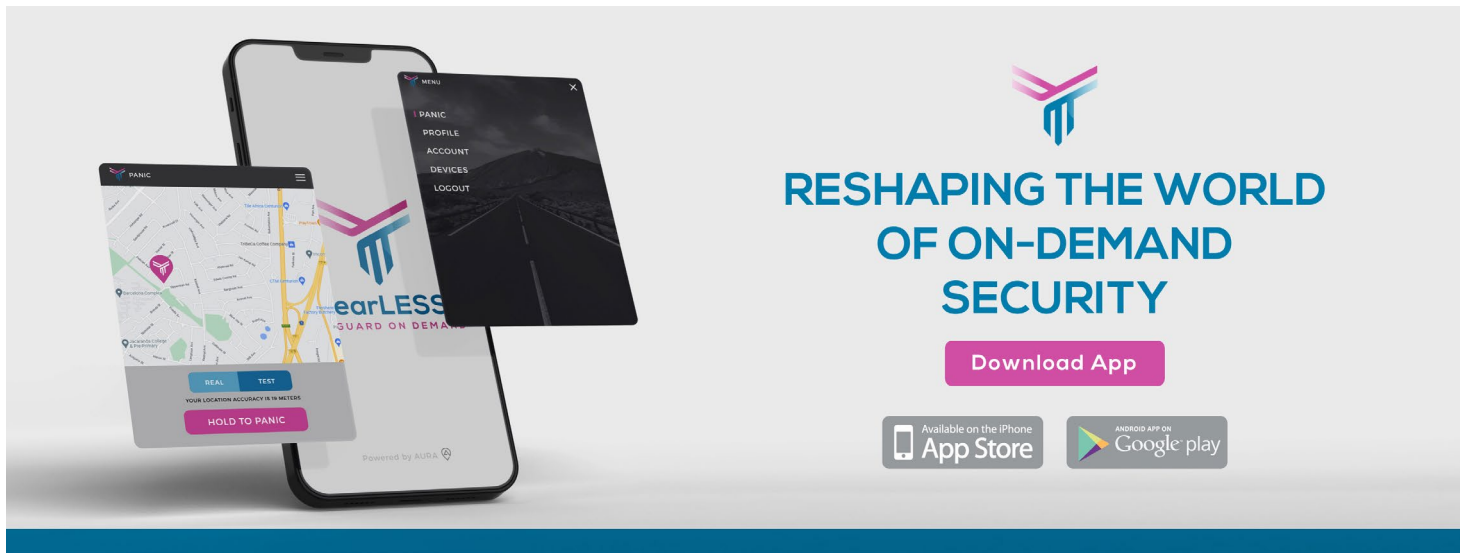

This is the reason iFearLESS believes that this solution is core for overall wellbeing.

POWER_{of}ONE

PARTNER OF:

The comprehensive solution is available to Social Responsible Corporate organizations for their employees and has the following benefits:

- The solution protects and supports employees 24/7 at home, at the office or while travelling;
- Accredited online self-paced training to employees on Personal Safety;
- The course is claimable as a B-BBEE qualifying expense which allows companies to utilize their skills budget to keep employees safe;
- The accredited training expense can be reported on an Annual Training Report;
- The course includes accredited training, self defence orientation videos and 12 months' free subscription to a bodyguard on demand;
- The App offers an immediate armed response service to minimize GBV and rape which is a pandemic in South Africa;
- The Self Defense videos are an orientation and additional in-person classes can be booked for groups at an additional cost;
- iFearLESS supports the rollout of the program and monitors progress;
- The company receives ongoing reports on employee training, progress or safety incidents;
- Employees receive constant safety tips;
- Employees that successfully submit a Portfolio of Evidence receive a certificate of completion.

This is the opportunity to holistically support employees' personal safety and wellbeing
